Skin: In case of skin contact, wash thoroughly with soap and water. Remov

organic solvents for cleanup as they may dry or irritate the skin and act as a carrier for chemical absorption.

Inhalation: If aerosol or mists are formed, remove affected person to fresh air. Seek immediate medical attention if breathing difficulties occur. Also keep patient half sitting with upper body raised.

Ingestion: If accidentally swallowed, rinse mouth thoroughly with water and, afterwards, drink plenty of water. In case of discomfort, obtain medical attention.
